

# 30 Series

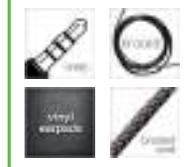

## AE-36 Time Proven Design

Built with the classroom environment in mind and already used by thousands of students across the United States, the stylish AE-36 headset is equipped with a noise-canceling adjustable boom microphone. Another great testing solution that allows recording answers in a clear and quiet manner.

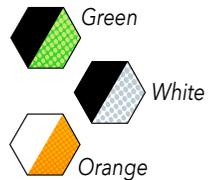

### Benefits

- Easy to clean vinyl earpads
- Adjustable noise-canceling mic
- Padded earcups and headband
- Chew-resistant braided cord
- Durable and dependable

### Features

### Available in:

**AE-36: \$9.98**

## AE-55

**AE-55USB: \$21.88**

State Education Testing requirements made **EASY!**

The **AE-55** is a sleek new headset that raises the bar. Understanding how difficult it is to meet the many diverse testing requirements when choosing headsets, AVID has developed one that takes the worry out of the equation for you. The AE-55 is designed for quality performance and comfort, while delivering on the various state testing and Telpas specifications.

### Benefits

- Easy to Clean and Store
- Noise-Canceling Microphone
- Durable and Dependable
- Ambidextrous Design
- 270 Degree Rotating Mic
- Noise-Reducing Ear Pieces
- Chew Resistant Braided Cord
- Adjustable Headband

### Features

 AE-55USB Orange

 AE-55USB Blue

Use the AE-35 or AE-36 on a computer that has two jacks with the TRRS Plug Adapter. Quickly converts a single TRRS.

**TRRS Adapter: \$2.48**

To help prevent costly 3.5mm pin breakage, the in-line Fishbone adapter is your solution. It flexes, allowing the pin to disengage smoothly when the attached audio cable is suddenly pulled from the jack at an angle which is a common occurrence in the classrooms.

Winner of the 2017 ISTE Best of Show, the Fishbone is a must-have in the classroom to protect your equipment.

**Fishbone: \$1.98**
