

# SupplyMaster Announces Addition to Management Team

## To Our Long Time Loyal Customers and Trusted Suppliers:

We are proud to announce that effective April 2025, our daughter-in-law, Nadia Brewer, will assume the new role of Vice President of Marketing. Nadia brings extensive knowledge of the K-12 education market, having formerly served as the Director of Purchasing at Murrieta Valley Unified School District. Over the next few years, Susan will “pass the baton”, as Nadia assumes greater responsibility and ultimately becomes SupplyMaster’s new President. Her experience and expertise in the K12 Education market and public sector contacts will be invaluable as we navigate this new chapter.

Nadia Brewer began her career at Lusardi Construction, where she spent 10 years in the Preconstruction Department. Her extensive experience and deep understanding of the construction industry led her to roles within school district facilities, starting as Facilities Coordinator for San Marcos Unified School District, and later as Assistant Director of Planning and Development for Riverside Unified School District. Throughout her career in the Facilities Department, Nadia successfully managed approximately \$500 million in projects, spanning from initial planning stages to final construction.

Her project management expertise laid the foundation for her role as Director of Purchasing at Murrieta Valley Unified School District. In this capacity, Nadia was responsible for Purchasing, Warehouse, and the Print Shop. Her responsibilities extended to managing Requests for Proposals (RFPs), insurance and contract management, the district’s fleet of printers, managed print services and billing.

We are excited to have Nadia join the SupplyMaster team. She has experienced the challenges our district customers face, especially now in the face of shrinking budgets. This transition will bring fresh perspectives and drive our business forward. Together, we will continue to build on our strong foundation and uphold the values that define us.

With Sincere Appreciation,

The Brewer Family
